Pour a few tablespoons into the whites, away from the whisk, so the hot syrup doesn't splash, and whisk on medium speed for a few seconds. Be careful as the syrup is very hot. Pour in a little more syrup and whisk for a few seconds, until incorporated. Repeat until all the syrup has been added. Raise the speed to high and continue to whisk until the mixture cools to room temperature, 70 to 75 degrees F, 5 to 10 minutes.
