Documents Used with Checkout by Amazon

Resource	Audience, Purpose, and Goals
Getting Started Guide (PDF)	For merchants who want to use a simple, step-by-step approach in setting up Checkout by Amazon on their websites, from start to finish. The Getting Started Guide walks merchants through the process, from gathering the required information for signing up for an account setting up a button on their websites.
Integration Guide (PDF)	For merchants and developers who want a detailed list of ways to integrate their website with Checkout by Amazon. The Integration Guide goes into more depth about programming and code development.
Developer Guide (PDF)	For developers who want a complete list of the code details for integrating Checkout by Amazon on their websites. The Developer Guide is the reference that documents all the necessary requirements.
Using Seller Central (PDF)	For merchants who want an overview of Seller Central.
Best Practices Guide (PDF)	Contains the best tips for merchants who want to set up their websites to use Amazon Payments, with advice for planning, setting up, and day-to-day operations.
Launch Checklist (PDF) Launch Checklist (XLS)	For merchants and developers planning to set up and use Checkout by Amazon on their site.
Integrating with PayPhrase (PDF)	For developers who want to quickly integrate Amazon PayPhrase on their shopping cart page and their detail pages.
Callback API Guide (PDF)	For developers who want to build their own applications to calculate shipping and tax rates as well as promotional discounts and then send these results to Checkout by Amazon.
Callback API Guide (PDF)	For developers who are using the XMLNS with a date of “2008-11-30” and who want to build their own applications to calculate shipping and tax rates as well as promotional discounts and then send these results to Checkout by Amazon.
Developer Cheat Sheet for the Callback API (PDF)	For developers who want a quick, 1-page summary of how to enable callbacks.
Instant Order Processing Notifications API Guide (PDF)	For developers who want to automate order notifications with Amazon Payments.
Using Custom Data Fields (PDF)	For merchants and developers who want to include custom data fields in their carts.
The Checkout by Amazon Shopping Cart Guide (PDF)	For merchants and developers who want to use the Checkout by Amazon Shopping Cart on their site.
Using Checkout by Amazon as a Payment Option (PDF)	For developers interested in Checkout by Amazon as an alternate payment method on their site.
Open-Source Shopping Cart Solutions (PDF)	For developers interested in open-source carts that support Checkout by Amazon (currently osCommerce 1.x and Zen Cart).
osCommerce Installation and Configuration Guide (PDF)	For developers interested in the osCommerce open source cart, v. 2.0 and greater.
