¹Based on ppm measured using FDIS ISO/IEC 24734. Standard applies to inkjet and laser products and excludes first set of test documents. ²After first page; see <http://www.hp.com/go/inkjetprinter> for details. ³Based on standard ITU-T test image #1 at standard resolution. More complicated pages or higher resolution will take longer and use more memory. ⁴The maximum dpi at which you can scan is limited by available computer memory, disk space, and other system factors. ⁵Power requirements are based on Europe and North America. The operating readings are taken from the average power consumed during normal mode printing. ⁶Power measurement are based on Energy Star OM test procedure with 230 VAC, 50 Hz input. ⁷Actual yield varies considerably based on content of printed pages and other factors. Some ink from included cartridge is used to start up the printer. For details see <http://www.hp.com/go/learnaboutsupplies>
