

Logitech® Harmony®

It's all about control.

Just one button. That's all it takes to get you ready for the game. A one-touch control to turn on your TV, surround sound and even room lighting to the settings you like. Now that's power. And no advanced degree required—the Harmony is simple, intuitive and easy to use. With a remote that brings it all together, you're in total control.

What makes the Harmony so superior?

Smart, simple setup

Quick online setup wizard eliminates guesswork and manual input of endless codes

Truly universal

Our database is updated daily to ensure compatibility with the devices and components of today as well as those coming tomorrow

All about ease

Ergonomic buttons are thoughtfully placed, ability to control multiple devices with a single button, and buttons and icons are customizable

More handy features

Color LCD displays for use in the dark

Touch screen controls

RF technology allows for control of devices behind cabinet doors
