With Amazon's European Fulfilment Network (EFN), sellers who are registered for Fulfilment by Amazon in Germany, France and/or Italy can ship their products to Amazon Fulfilment Centres in Germany and/or France. If they so configure their account, these products are subsequently made available and delivered directly to customers purchasing on amazon.co.uk. There is a small additional flat fee for items delivered to customers outside the home marketplace. This page covers the additional EFN fee which is on top of the standard UK Fulfilment by Amazon fees covered in the previous pages of this rate card.

All fees are exclusive of VAT and other taxes which are payable by the merchant.

Frequently Asked Questions

Q: Can I charge different prices for the same product on different marketplaces with my Amazon Europe Marketplaces Account?

A: Yes you can charge different prices for the same product in Germany, France, Italy and UK (which may include your EFN fees, which in the majority of cases are more attractive than local international postage fees). For each product you want to sell, you need to create and upload a localised listing to each marketplace.

Q: Am I obliged to use EFN to fulfil my international FBA orders?

A: No, if you have already registered or wish to register with a separate account to sell on and use FBA in another Amazon EU marketplace as a local seller you can do so. You will of course need to send inventory to Amazon fulfilment centres in the other EU Marketplaces you wish to sell in and manage separate inventory pools.

Q: When does it makes sense to use the FBA Export to EU option and when EFN?

A: The FBA export to EU option is only for items purchased by customers on your Amazon home marketplace or other Amazon EU marketplaces you may have registered to sell from and requesting delivery to another EU country. With EFN you can also make your products available for sale on other Amazon EU marketplaces from one Seller Account with shipment originating from your local inventory pool.

Q: Will my EFN orders be eligible for fast track delivery options and Amazon Prime?

A: Only orders originating from your home marketplace will be eligible for fast track status. All orders will be eligible for Amazon Prime, regardless of marketplace.

Q: Are there any tax implications if I use EFN?

A: We advise you to check with your local tax advisor concerning tax implications and to comply accordingly.

Order Fulfilment for Standard-Size Media

FBA can fulfil orders placed on Amazon.co.uk, as well as on other sales channels. Fees vary based on the sales channel on which an order is placed. See Examples below.

On Amazon.co.uk Fulfilment Orders placed on Amazon.co.uk		
	Media	Zero Fee Fulfilment
Unit Price	< £300	value > £300
Order Handling per order	£0.00	£0.00
Pick & Pack per Unit	£0.50	£0.00
Weight Handling:		
Envelope weight up to 250 g Must fit within 300 x 200 x 20 mm	£0.05 per 100 g*	£0.00
Envelope weight 251-750 g Must fit within 300 x 200 x 20 mm	£0.08 per 100 g*	£0.00
Box up to 2 kg	£0.10 per 100 g*	£0.00
Box more than 2 kg	£2.00 + £0.02 per 100 g* above the 1st 2 kg	£0.00

*While the weight handling fees is presented at 100 g increments, we levy the fee on the actual Outbound Package Weight, rounded to the nearest gramme. For example, a 120 g envelope shipment would incur a weight handling fee of £0.06 (120 g x £0.05 per 100 g).

Note: For on Amazon orders, the Outbound Shipping Weight will be rounded up to the nearest gramme and the Weight Handling Fee will be rounded up to the nearest pence. The weight handling fee will be calculated by adding the outbound shipping weight which is the combined weight value assigned to the unit plus the packaging weight (box + packing material). The packaging weight applied will be 50 g for envelope, 75 g for standard and 300 g for oversize products.

*For Multi-Channel weight handling, determine a shipping method. For shipments with mixed unit types, use the highest applicable fee. Total shipment weight is calculated by adding a dunnage factor of 10% to the combined total of the individual unit weight in the shipment.

Inventory Storage

Storage fees are charged for all Units stored in an Amazon fulfilment centre based on calendar month and your daily average volume (measured in cubic metre). The cubic metre of any Unit will be based on the Unit's size as properly packaged and ready for shipment to customers in accordance with the FBA Programme Policies. Amazon will be entitled to make its own measurement of the cubic metre or weight of any packaged Unit or representative sample thereof and in the event of any conflict between such measurement and information provided by Seller, Amazon's measurement will govern.

A Long-Term Storage programme took effect on August 15, 2011. On that date, and every six months thereafter, FBA will assess an upfront annual Long-Term Storage Fee of £1765 per cubic metre (£50 per cubic foot) on any inventory that has been in Amazon fulfilment centres for 365 days or more. Note: For on Amazon orders, the Outbound Shipping Weight will be rounded up to the nearest gramme and the Weight Handling Fee will be rounded up to the nearest pence. *For Multi-Channel weight handling, determine a shipping method. For shipments with mixed unit types, use the highest applicable fee. Total shipment weight is calculated by adding a dunnage factor of 10% to the combined total of the individual unit weight in the shipment.

With Amazon's European Fulfilment Network (EFN), sellers who are registered for Fulfilment by Amazon in Germany, France and/or Italy can ship their products to Amazon Fulfilment Centres in Germany and/or France. If they so configure their account, these products are subsequently made available and delivered directly to customers purchasing on amazon.co.uk. There is a small additional flat fee for items delivered to customers outside the home marketplace. This page covers the additional EFN fee which is on top of the standard UK Fulfilment by Amazon fees covered in the previous pages of this rate card.

All fees are exclusive of VAT and other taxes which are payable by the merchant.

Frequently Asked Questions

Q: Can I charge different prices for the same product on different marketplaces with my Amazon Europe Marketplaces Account?

A: Yes you can charge different prices for the same product in Germany, France, Italy and UK (which may include your EFN fees, which in the majority of cases are more attractive than local international postage fees). For each product you want to sell, you need to create and upload a localised listing to each marketplace.

Q: Am I obliged to use EFN to fulfil my international FBA orders?

A: No, if you have already registered or wish to register with a separate account to sell on and use FBA in another Amazon EU marketplace as a local seller you can do so. You will of course need to send inventory to Amazon fulfilment centres in the other EU Marketplaces you wish to sell in and manage separate inventory pools.

Q: When does it makes sense to use the FBA Export to EU option and when EFN?

A: The FBA export to EU option is only for items purchased by customers on your Amazon home marketplace or other Amazon EU marketplaces you may have registered to sell from and requesting delivery to another EU country. With EFN you can also make your products available for sale on other Amazon EU marketplaces from one Seller Account with shipment originating from your local inventory pool.

Q: Will my EFN orders be eligible for fast track delivery options and Amazon Prime?

A: Only orders originating from your home marketplace will be eligible for fast track status. All orders will be eligible for Amazon Prime, regardless of marketplace.

Q: Are there any tax implications if I use EFN?

A: We advise you to check with your local tax advisor concerning tax implications and to comply accordingly.
