

Restricted Products

Customers trust that they can always buy with confidence on Amazon.co.jp. Products offered for sale on Amazon.co.jp must comply with all laws and regulations and with Amazon's policies. The sale of illegal, unsafe, or other restricted products listed on these pages, including products available only by prescription, is strictly prohibited.

We take product safety and these restrictions very seriously. Sellers should carefully review the "Examples of Permitted and Prohibited Listings" sections in each Restricted Product category and the other [Related Topics](#) before listing a product. If you sell a Restricted Product, we may immediately suspend or terminate your selling privileges and destroy inventory in our fulfillment centers without reimbursement. In addition, if we determine that a seller's account has been used to engage in illegal activity, remittances and payments may be withheld or forfeited. The sale of illegal or unsafe products can also lead to legal action, including civil and criminal penalties.

We are constantly innovating on behalf of our customers and working with regulators, third party experts, vendors, and sellers to improve the ways we detect and prevent illegal and unsafe products from reaching our marketplace. We work hard on this issue every day because we know that our customers trust that they are buying safe and legal products when they shop on Amazon.co.jp. Amazon encourages you to report listings that violate Amazon's policies or applicable law by using [our Contact Us](#) form (select "Report a violation of our rules" and include all relevant information). We will investigate each report thoroughly and take any appropriate actions.
